Summary

Front-End Developer with **4.5 years of experience**, specializing in **Next.js, React.js, Typescript, JavaScript (ES6+)**, and **Redux/Zustand**. Skilled in building **real-time, scalable web applications** using **WebSockets, SSE**, and integrating **RESTful APIs**. Proficient with modern tools and libraries including **Tailwind CSS, Jest, React Testing Library**. Experienced working in **agile teams** with strong practices around **Git, CI/CD pipelines**, and **code reviews**. Recognized for writing **clean, maintainable code**, focusing on **performance optimization** and **scalable solutions**.

Skills

Programming Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Libraries/Frameworks	React.js, Next.js, Redux, React Query, Tailwind CSS, Bootstrap, Styled Components, AI SDK
API/Data	REST APIs, GraphQL, Axios, WebSockets, SSE, SWR, Tanstack
Productivity/AI Tools	ChatGPT, GitHub Copilot, Cursor IDE, Postman
Testing Tools	Jest, Enzyme, React Testing Library
Version Control/CI/CD	Git, GitHub, Vercel, Netlify
Soft Skills	Collaboration, Problem-Solving, Adaptability, Proactiveness, Continuous Learning

Experience

Velotio Technologies, Frontend Developer | Remote

May 2025 - Present

- Engineered an advanced **agentic chatbot interface** leveraging the **Vercel AI SDK** with real-time **Server-Sent Events (SSE)**, building a fully **dynamic, adaptive UI** that renders live tool calls, LLM actions, and multi-step reasoning artifacts directly on the frontend for an immersive interactive experience.
- Contributed to the design and implementation of an end-to-end **agentic solution architecture** integrating both **voice bots and chatbots**, orchestrated through modular flows incorporating components such as **OpenSearch, Guardrails, evaluation pipelines**, and curated **datasets** to ensure accuracy, safety, and real-time intelligence.
- Led the frontend development of a high-performance **job portal and career page** built with **Next.js** and **Material UI (MUI)**, delivering SEO-optimized, fully responsive, and performance-driven user experiences aligned with modern design principles.

Gigmo Solutions Pvt Ltd, Software Developer | Gurugram, India

June 2023 - April 2025

- Led the design and development of the **Payments module**, integrating **React.js, Redux, TypeScript**, and backend APIs. Implemented **Server-Sent Events (SSE)** for **real-time payment tracking** to enhance transaction transparency.
- Built a scalable **real-time chat application** using **WebSockets**, improving user engagement and ensuring low-latency communication across the platform.
- Developed and maintained **role-based access control (RBAC)** and dynamic permission management, ensuring secure and flexible feature access via **context-aware components**.
- Contributed to a **recommendation system** powered by **prompt engineering** with **ChatGPT API**, enabling intelligent, context-aware suggestions to enhance user support experiences.

Wipro Technologies, Project Engineer | Remote

Sept 2021 - May 2023

- Engineered modular **React components** and integrated **Redux** for enterprise-scale web apps, improving UI consistency and increasing user session duration by **2 minutes** on average.
- Enhanced performance and user accessibility, achieving **WCAG compliance** and **15% faster load times** via code optimization and lazy loading techniques.
- Translated **complex wireframes and prototypes** into pixel-perfect, responsive interfaces using **React.js, Tailwind CSS, and Styled Components**.

Projects

ICU and OT Management System using React, AI-enhanced

Jan 2023 – July 2024

- Built a digital **PAC form** with **React.js, TypeScript, Redux** and real-time validation; integrated **SSE + WebSocket** for live patient vitals streaming dashboards.
- Delivered predictive insights through **AI-driven D3/Chart.js visualizations** and automated discharge via **EHR-PDF workflows** with RBAC.

Product Management System using React | GitHub Link

Nov 2021 – May 2022

- Designed a responsive **CRUD platform** with **React, Redux, Tailwind CSS** and **Firebase Auth**, enabling secure multi-role access and JWT-based sessions.
- Implemented **AI-powered product suggestions**, real-time notifications, batch inventory controls, and **stock alert automation**.

EDUCATION

Amity University, B.Tech - CSE | Gurugram, India

Aug 2017 - Jun 2021
